GFH/MM

8 JAN 1962

The Secretary,
National Committee for Oceanic Research,
The Royal Society,
Burlington House,
LONDON, W.1. ENGLAND

Dear Mr Hemmen,

The Indian National Committee on Oceanic Research has made the following comment on Reference Stations:-

"We would be glad to have reference stations located at following points, if possible.

	<u>Latitude</u>	<u>Longitude</u>
Arabian Sea:	24°	67°
	18°	72°
	14°	73°
	9°	76°
	5°	65° "

These positions are in areas for which I asked your committee to consult with others about the exact location. Please take note of the Indian suggestions.

Yours sincerely,

(G.F. HUMPHREY)
President of SCOR
