Dear George:

In answer to your letter of 29 April (ref. 033.423), I have already commented on SCOR and the IIOE data form in my letter to Dr. Böhnecke concerning the report on the last SCOR meeting. As for the reference stations, I agree there may be some confusion and lack of knowledge. However, the section on this in IIOE Information Paper No.1 is quite clear, and I know of no new information to be reported. The list given there is as authoritative as any I know. We could reprint it, I suppose, but should we assume that nobody reads or retains anything we distribute?

Sincerely,

A handwritten signature in cursive script that reads "Warren".

Warren S. Wooster
