2020 Call for SCOR Working Group Proposals - Deadline extension

Due to the many restrictions imposed to mitigate the impact of COVID-19, SCOR has extended the reception of Working Group proposals to the **8th of May 2020**.

The guidelines, a template, and word limits are available [here](#), including a PowerPoint presentation explaining the proposal process.

Each proposal will be evaluated by [national SCOR committees](#) in terms of scientific merit and quality, timeliness, and achievability of the proposed terms of reference. National SCOR committees are an important aspect of SCOR's operation and play a key role in reviewing working group proposals and in seeking new funds to support working group activities. In addition, the review of working group proposals is open worldwide to partner organizations and individuals who would like to provide comments.

Proposals will be selected at the 2020 SCOR Annual Meeting taking place in Guayaquil, Ecuador on the week of the **19-23 of October 2020**.

Annual SCOR meetings are open, but anyone submitting a proposal or included in a proposed working group membership will be asked to leave the room when their proposal is discussed, to avoid any appearance of favoritism toward proposals that are represented at the meeting by a proponent. Please contact [me](#) if you have any questions about the process for working group proposals.

Patricia Miloslavich
SCOR Executive Director
